Healthcare Professionals

A Legacy of Excellence, A Future of Care

The Legacy

Core Values

Nursing is not just a career choice—it is a calling. A journey filled with compassion, purpose, and the deep sense of making a difference.

— Er. Bijay Kumar Jena, Chairman

Nursing is a Calling, Not Just a Career

“Choosing Nursing is not just a career choice—it’s a calling. It requires empathy, patience, and dedication. It is a beautiful journey filled with compassion, purpose, and the deep sense of making a difference in the world. It will give you a sense of fulfillment and pride that you can carry every day of your life.”

Er. Bijay Kumar Jena,
Chairman, Bright Group of Institutions

Success here is measured not just in academic achievement, but in character building, discipline, and dedicated service to humanity.

Your Dreams... Our Mission...

Bright School of Nursing

Bright School of Nursing

Building the Complete Healthcare Supply Chain

The Ground Force

**Bright School of Nursing
(ANM/GNM)**

Community Health & Early Detection.

The Intelligence Agency

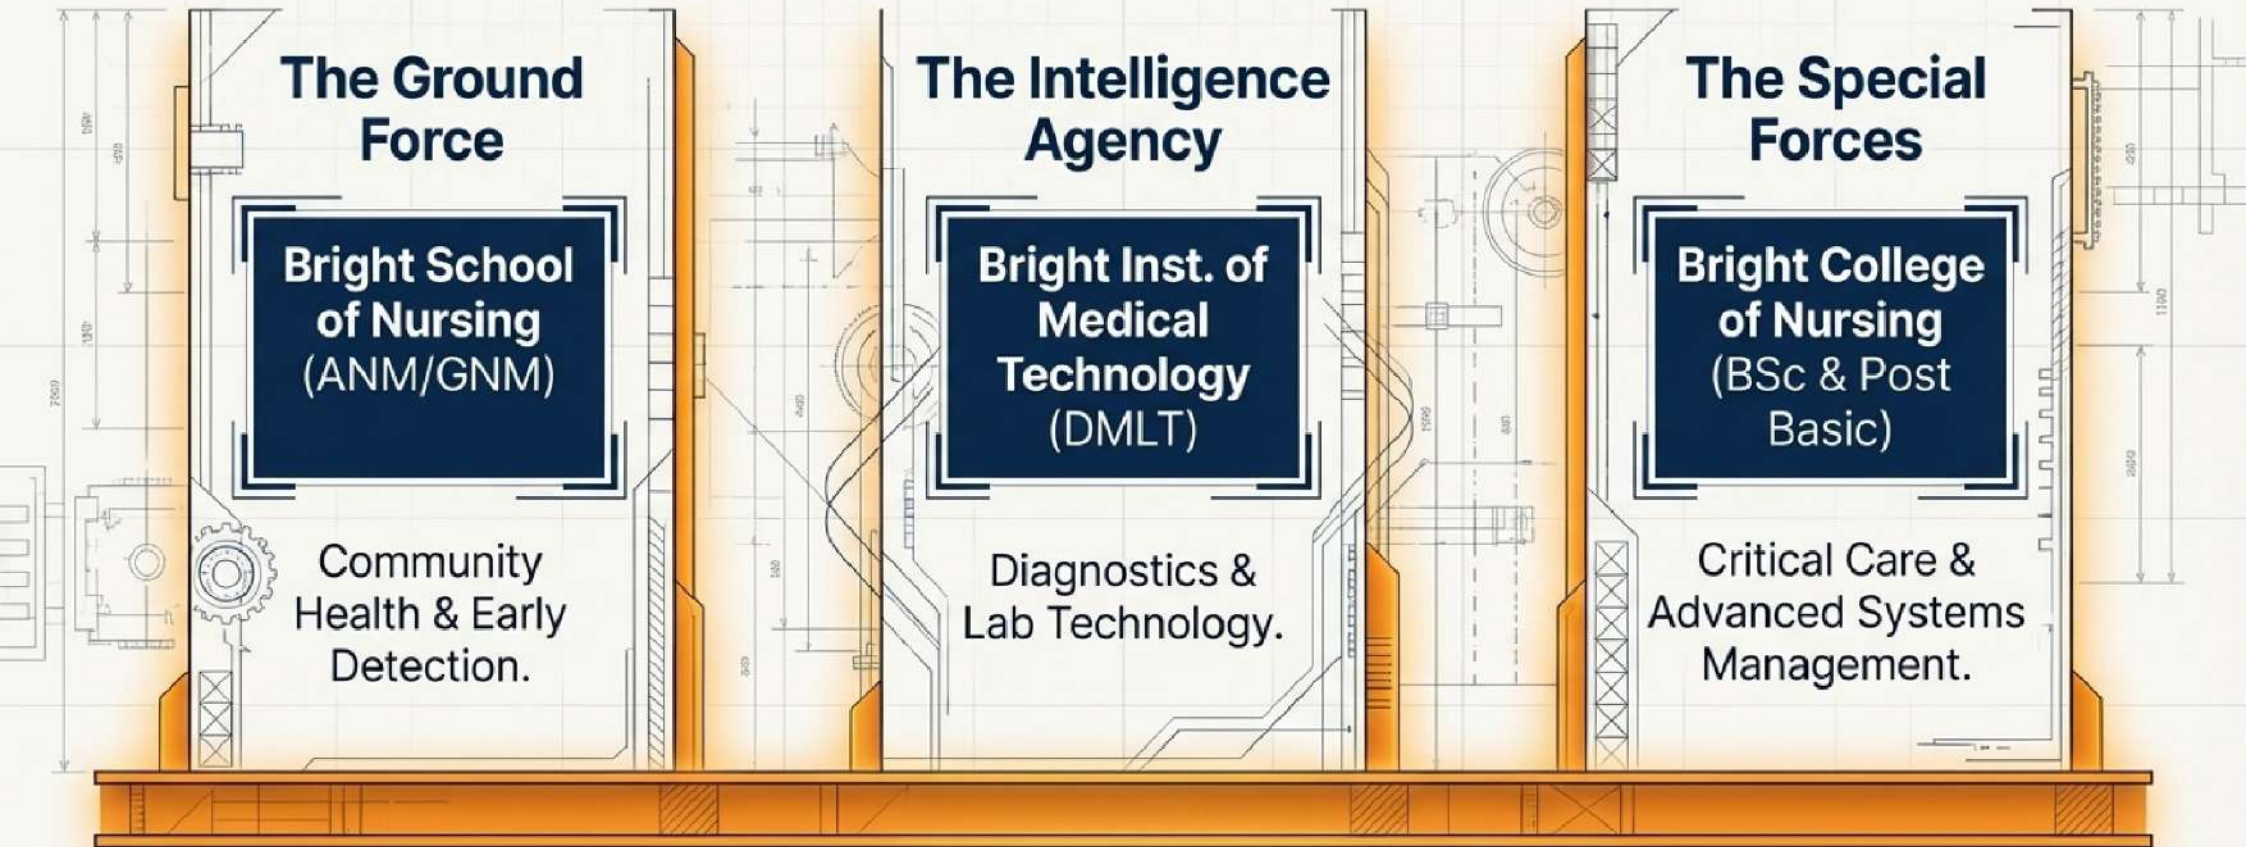

**Bright Inst. of Medical Technology
(DMLT)**

Diagnostics & Lab Technology.

The Special Forces

**Bright College of Nursing
(BSc & Post Basic)**

Critical Care & Advanced Systems Management.

Tier 1: Community Detection (ANM/GNM)

When a Dengue outbreak begins, the Chief Doctor doesn't go to the village. The ANM/GNM nurse acts as the first line of defense, identifying the threat at the grassroots and securing the patient.

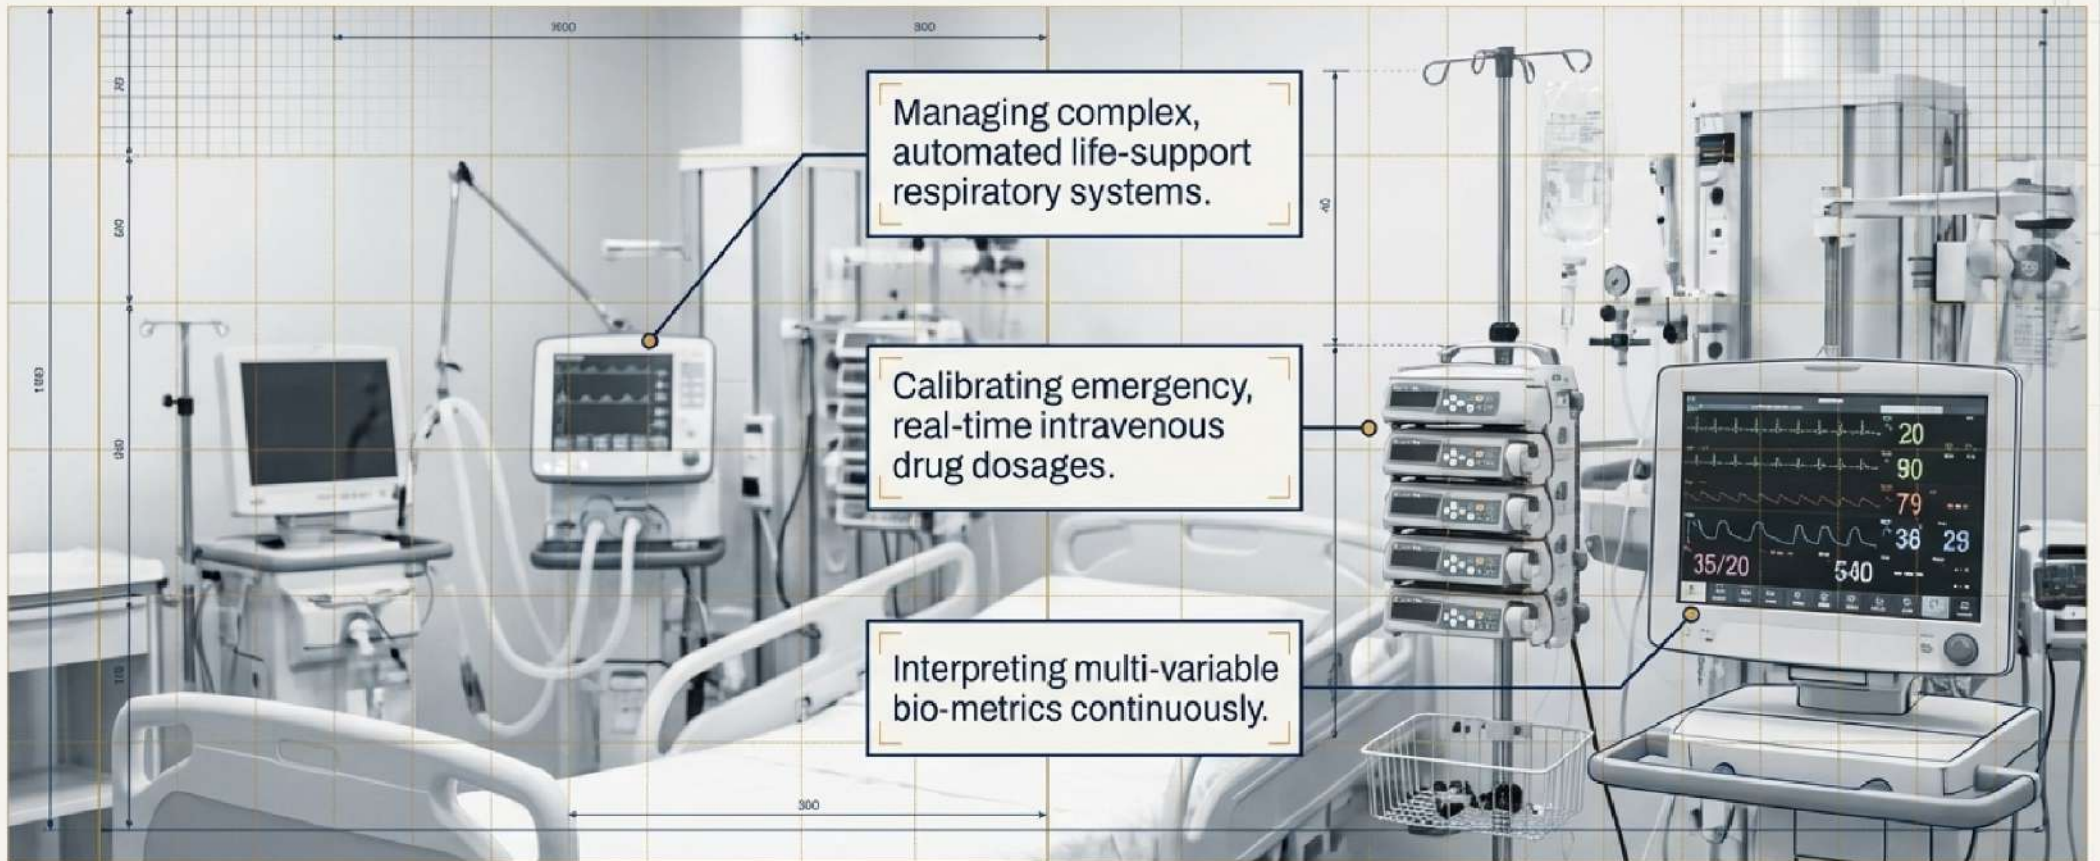

Tier 2: Diagnostic Intelligence (DMLT)

Modern medicine is entirely blind without data. Lab Technicians analyze the blood and platelet counts. Without their precise intelligence, the doctor cannot write a single prescription.

Tier 3: The ICU Special Forces (BSc Nursing)

When a critical patient enters the ICU, survival depends on highly trained technical professionals who manage advanced medical machinery and emergency protocols.

The Degree Pathway: Advanced Nursing Sciences

B.Sc Nursing

Focus: Comprehensive modern curriculum preparing students for dynamic clinical environments.

Admissions Route: OJEE Entrance.

Outcomes: Direct entry into registered nursing roles, leadership, or advanced M.Sc programs.

Post Basic B.Sc Nursing

Focus: Upskilling existing GNM diploma holders into degree-qualified professionals.

Prerequisite: ONMRC Registration.

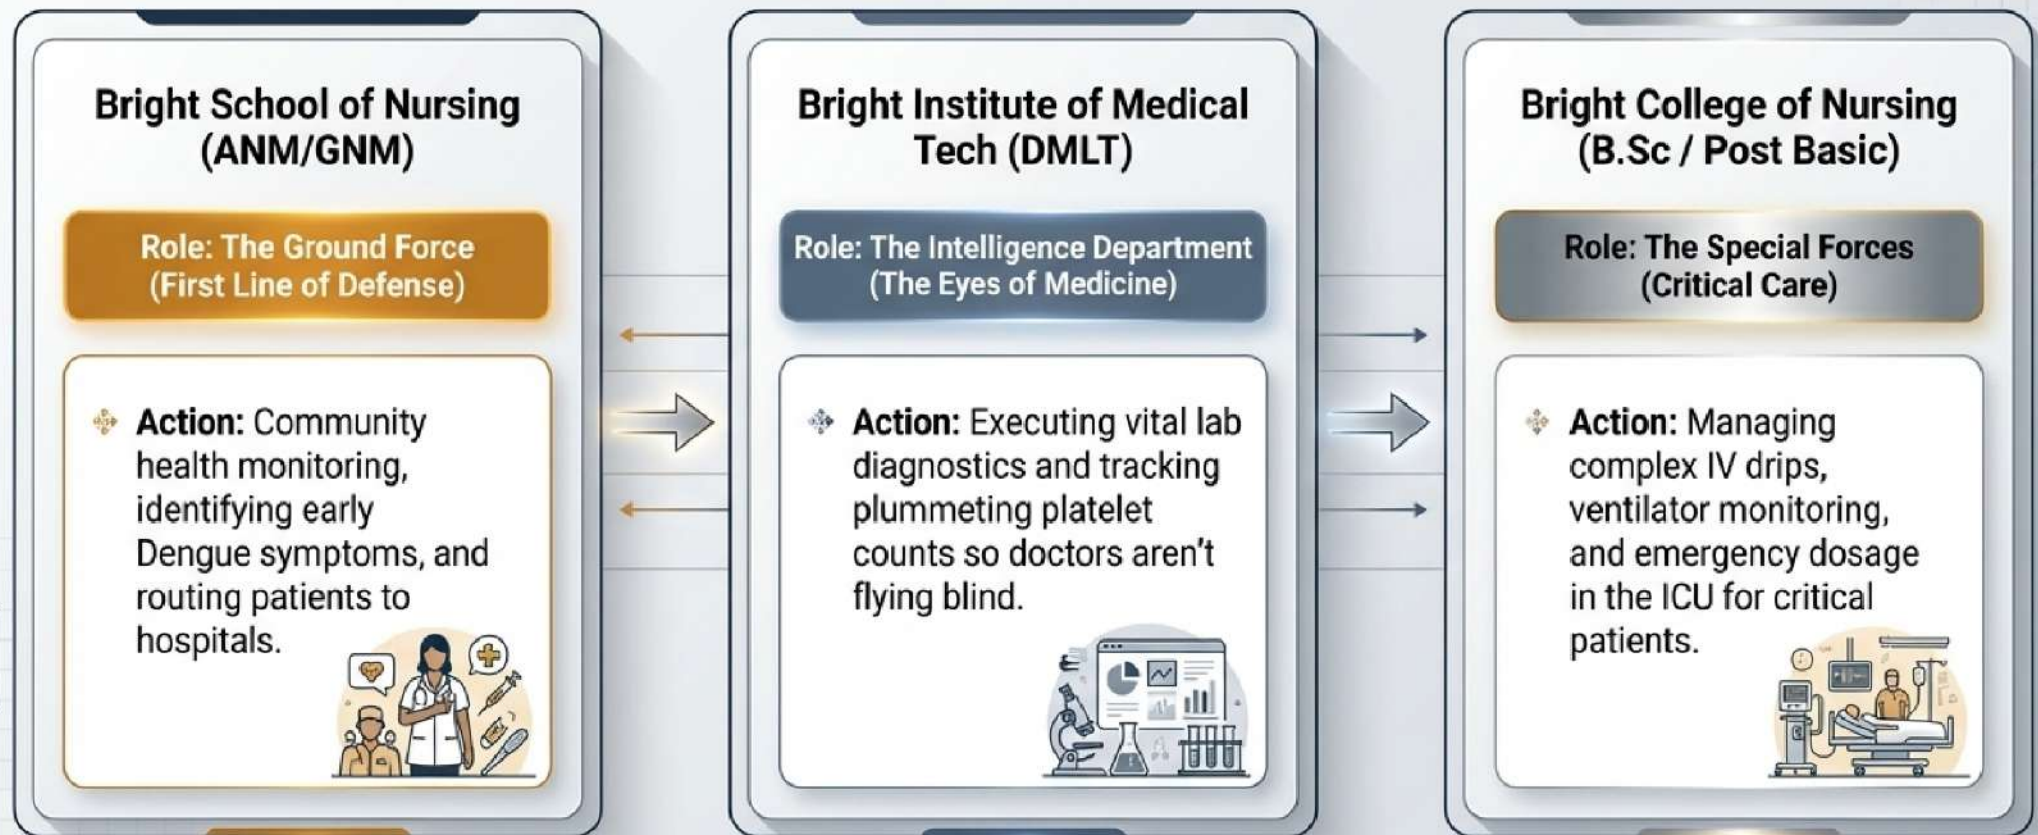

Outcomes: Elevated clinical authority and expanded career trajectories in healthcare management.

Both courses emphasize holistic development, critical thinking, and leadership in healthcare.

THE BRIGHT ECOSYSTEM IN ACTION

Tracking a public health crisis (e.g., a Dengue outbreak) through the Bright-trained workforce

The Diploma Pathway: Grassroots & Community Care

GNM (General Nursing & Midwifery)

Focus: 3-year intensive clinical training covering Medical-Surgical, Mental Health, and Child Health.

Grading System:

- ✓ - Distinction (80%+)
- ✓ - First Division (70-79%)
- ✓ - Second Division (60-69%)

ANM (Auxiliary Nursing & Midwifery)

Focus: 2-year rapid-entry course focused on maternal care, child health, and rural healthcare.

Career Scope:

- ➔ - Primary Health Centers (PHC)
- ➔ - NGOs
- 🏠 - roles as Community Health Officers.

Gateway to Higher Education

ANM

GNM

Post Basic B.Sc

Allied Health: Diploma in Medical Laboratory Technology (DMLT)

Syllabus Highlights

Year 1:

- Human Anatomy, Clinical Biochemistry, Microbial Instrumentation.

Year 2:

- Human Physiology, Clinical Hematology, Histopathological Techniques.

Fast-growing career track with salaries scaling rapidly with diagnostic experience.

The Campus Ecosystem

Smart Classrooms

Technology-enabled spaces with overhead projectors and natural ventilation to foster interactive learning.

The Digital Library

24/7 access to e-books, physical texts, and comprehensive academic research platforms.

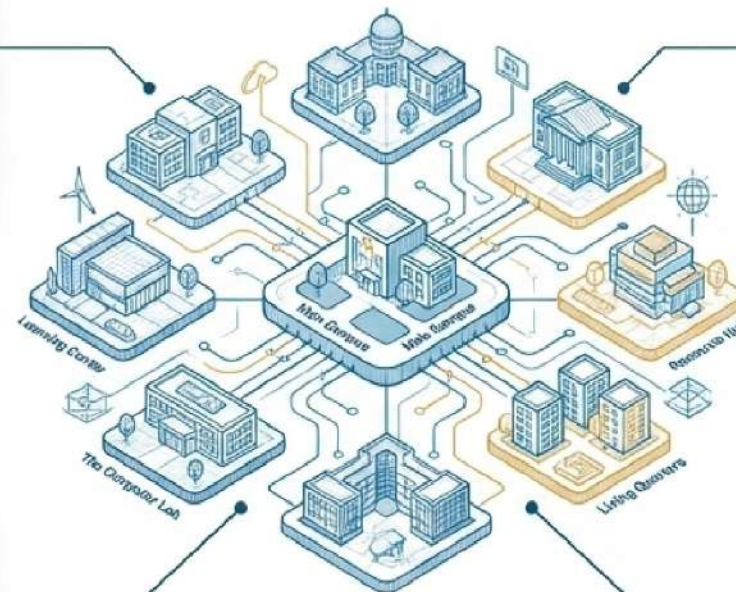

The Computer Lab

High-speed internet and practical training in modern hospital management software.

The Residence

Safe, CCTV-monitored hostels providing hygienic food and dedicated clinical transport facilities.

The Clinical Progression Model: From Classroom to Real World

Phase 1: Theory & Fundamentals

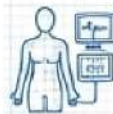

Pre-Clinical Science Lab

Utilizing anatomical models and microscopes to bridge foundational theory with physical human anatomy.

Phase 2: Simulation & Safety

Specialized Labs

- **Nursing Foundation Lab:** Mastering vital signs, wound dressing, and infection control on hospital mannequins.

- **OBG Lab:** Simulation-based learning for antenatal care, delivery, and neonatal safety.

- **Community Health Lab:** Diet planning, immunization, and public health surveys.

Phase 3: Real-World Competence

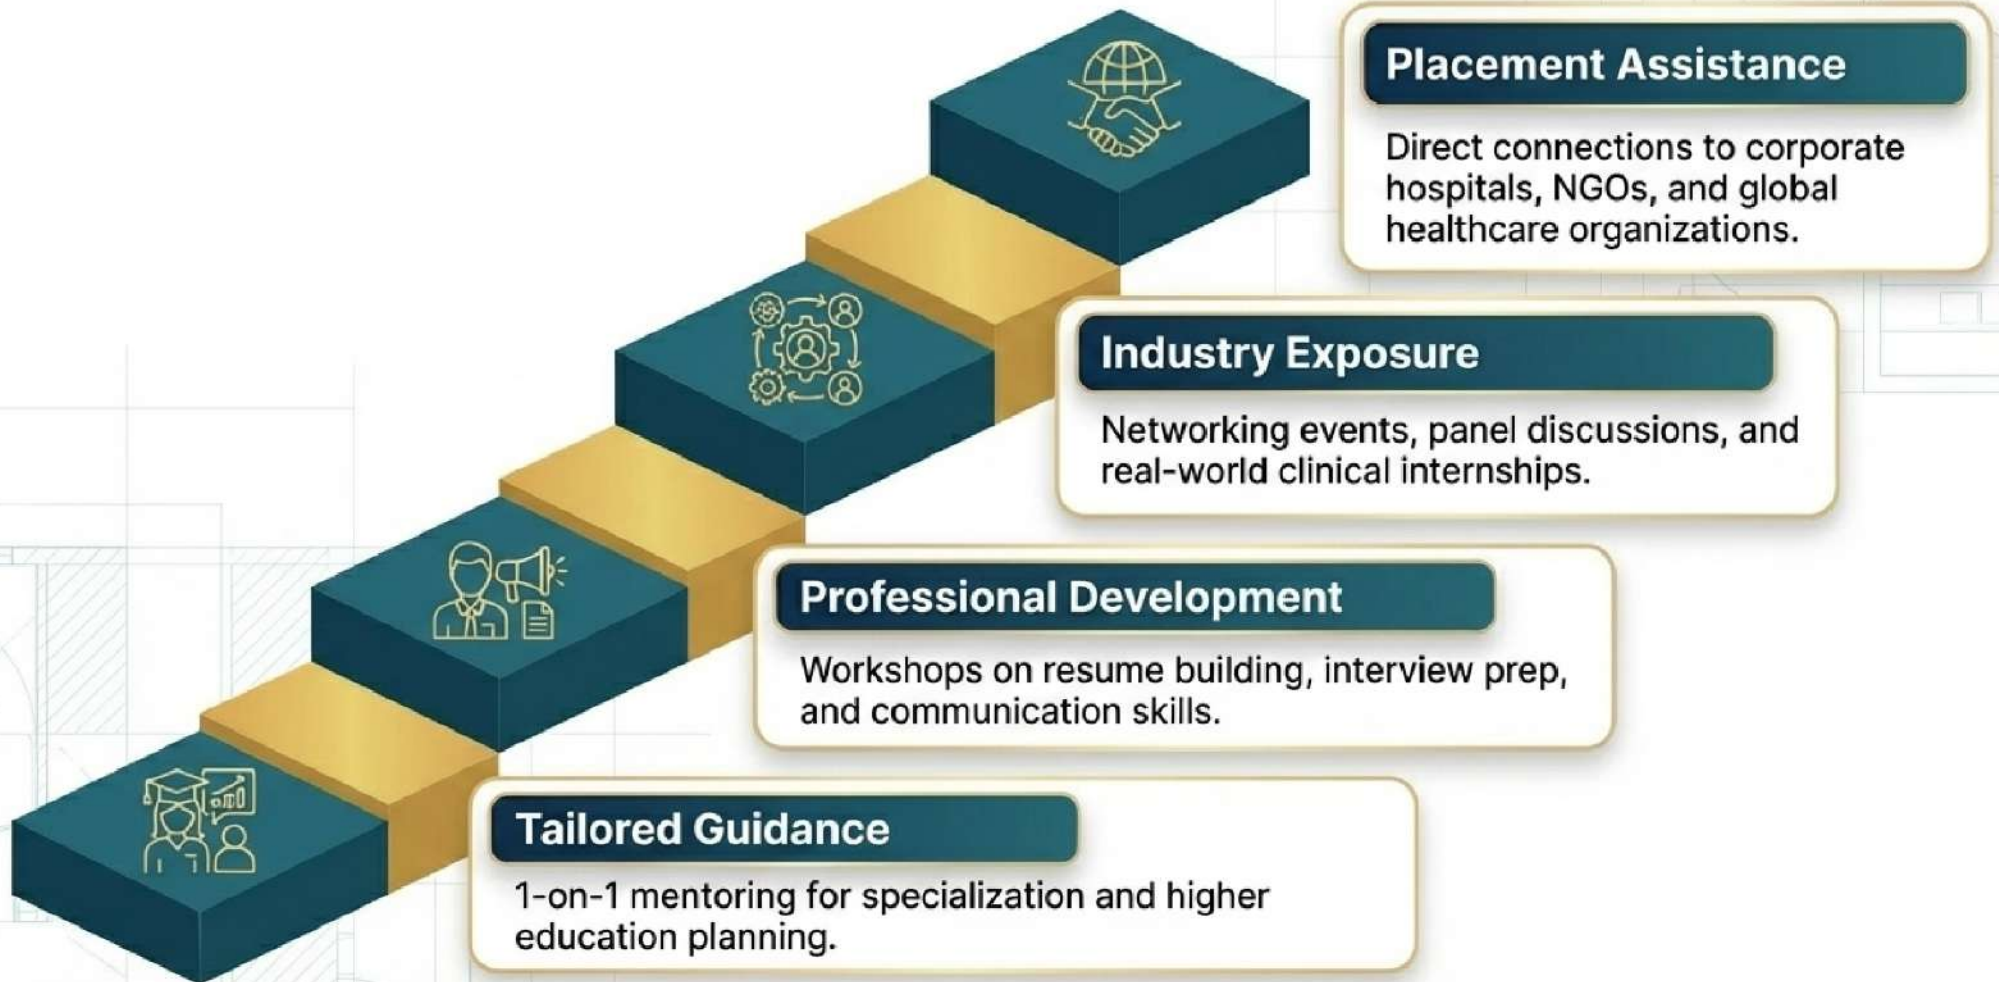

Hospital Exposure

Hands-on training at SCB Medical College & Corporate Hospitals covering ICU management, emergency care, and operation theatre protocols.

Course Selector: Master Comparison Matrix

| Course | Duration | Seats | Base Annual Fee | Eligibility |
|--------------------|----------|-------|-----------------|-------------------------------|
| B.Sc Nursing | 4 Years | 60 | ₹70,000 | 10+2 Science (PCB 45%) + OJEE |
| Post Basic B.Sc | 2 Years | 60 | ₹60,000 | GNM Pass + Registered Nurse |
| GNM (Diploma) | 3 Years | 60 | ₹70,000 | 10+2 Any Stream (40%) or ANM |
| ANM (Diploma) | 2 Years | 40 | ₹50,000 | 10+2 Any Stream (Female Only) |
| DMLT (Paramedical) | 2 Years | 40 | ₹50,000 | 10+2 Science (45%) |

Beyond the Bedside: Career & Placement Support

The Financial Roadmap: Investment & Accommodation
